

TwistGrain

Moisture meter
with grain compression

Precise measurement of moisture content in coffee beans

Species and measurement ranges:

• Coffee Arabica cherry dry	6.0 % – 21.0 %
• Coffee Arabica Roasted	2.0 % – 9.5 %
• Coffee Robusta Roasted	2.0 % – 9.0 %
• Coffee Arabica Green	5.0 % – 29.9 %
• Coffee Robusta Green	5.8 % – 30.3 %
• Coffee Arabica finely milled	2.0 % – 9.5 %
• Coffee Arabica coarsely milled	2.0 % – 11.5 %
• Coffee Robusta finely milled	2.5 % – 8.5 %
• Coffee Robusta coarsely milled	2.0 % – 11.5 %
• Coffee Arabica parchment	8.0 % – 39.0 %
• Cocoa	3.9 % – 20.9 %

Technical Data:

Weight of the device	520 g
Dimensions	16.5 × 7.0 × 7.5 cm
Display	graphic LCD LED backlit, diagonal 2"
Power supply	4 batteries 1.5V type AA 1 battery 3V type CR-2032
Approximate time of continuous operation on one battery set	77 hours when backlight is set to 0% 54 hours when backlight is set to 30%
Low battery indicator	graphic
Way of filling the chamber	manual
Method of humidity measurement	impedance in 4 frequencies
Measurement resolution	humidity – 0.1%, temperature – 0.1°C/°F
Temperature compensation	considered automatically
