

**HI - PURE**

## ***RO-H400G Water Purifier***

### ***400GPD Under Sink Tankless Reverse Osmosis System Direct Drinking Water Purifier***

Filter element integration, water circuit integration, circuit integration design, large flow and small volume

Two-stage water purification filter element, integrated with multi-stage integrated composite filter element, makes the water purifier smaller and more intelligent

Intelligent core replacement reminder, intelligent self-cleaning program. Don't drink bad water, and make it cleaner

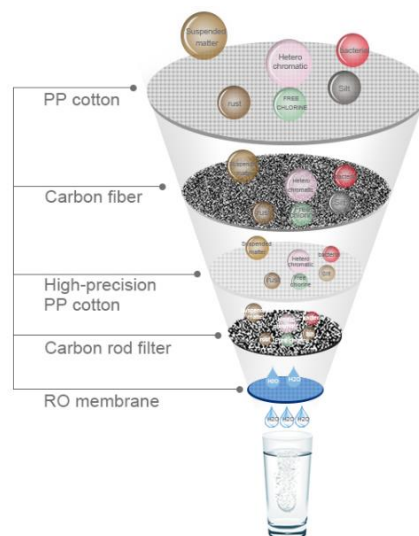

Self-service quick core change, using Quick-Twist fast technology, no need for special person to change core, only need to rotate and clamp in place

High filtration precision, which can effectively remove suspended impurities, harmful heavy metals, harmful bacteria and residual chlorine in water

Filter element: composite filter element +RO membrane

## **4 + 1 LAYERS FILTRATION**

The two filters provide five stages of filtration.  
Effectively removes 1000+ contaminants.

## Product Description

Tankless reverse osmosis system water purifier

<b>Product name</b>	<b>RO-H400G</b>
<b>Machine size</b>	368(L)x135(W)x376(T) mm
<b>Capacity</b>	400GPD
<b>Inlet pressure</b>	1-3 Bar
<b>Feed water pressure</b>	0.1 - 0.4 Mpa
<b>Operating temperature</b>	4 - 38°C
<b>Power supply</b>	220VAC , 50Hz
<b>Feed water TDS limit</b>	≤1000ppm
<b>Feed water source</b>	Municipal tap water
<b>Flush method</b>	Auto flush
<b>Color</b>	White

5-Stage Filtration

Ultra low  
wastewater ratio

Filter Replacement  
Reminder

3 Seconds To  
Replace Filters

Auto Flush

Integrated Waterflow
