

AC6500D

FUME AND ODOUR EXTRACTOR

Function : AC6500D is a smoke and odour treatment equipment for laser marking, pad printing machine, soldering, webbing heat transfer and other occasions, which can deal with the smoke, odour, toxic and harmful gases produced in the above production process, and it has a good function of smoke filtration and odour treatment.

Consumables Display

Description	Replacement	Size (LxWxH)
Primary filter	7-30 days	445x375x30 mm
Medium efficiency filter	2-4 months	445x375x50 mm
Molecular filter	4-6 months	445x375x50 mm

Specification parameters

Model	Single Port	Dual Port
Voltage	AC110/220V, 50HZ	AC110/220V, 50HZ
Power	650 W	650 W
Pressure	3600 Pa	3600 Pa
Air volume	1000 m³/h	2x500 m³/h
Filtration	0.3µm 99.7%	0.3µm 99.7%
Size (LxWxH)	500x425x650 mm	500x425x650 mm
Weight	43 kg	44 kg
Flange	Ø75 mm	2 x Ø75 mm

Note : Please confirm the factory operating voltage before powering on, it must be the same as the voltage calibrated on the power label of the equipment to be used.
