

This electric steam boiler is clean, quiet, easy to install, and compact. No combustion considerations and minimal complexity make them a good alternative where emissions regulations are a concern.

- High efficiency
- Simple to maintain
- No stack requirement
- With step function to avoid peak load

### **SPECIFICATION & DIMENSIONS**

ITEM		MODEL
		SR-14
Capacity	kg/hr	14
Working pressure	kg/cm <sup>2</sup>	6
Testing pressure	kg/cm <sup>2</sup>	9
Steam temp.	°C	165
Control system	-	Step function automatic
Electric source	-	AC 3 Ø 4 Wire 380 V
Width	mm	700
Length		1000
Height		1450
Main steam valve	Dia. (DN)	15
Safety valve		15
Feed water valve		15
Blow down valve		15
Operating weight	kg	60
Dry weight		40

**Note :** Specification can be changeable according to the design without notice
